Response to Argument

2. Applicant's arguments filed December 15, 2009 have been fully considered and are persuasive.

Allowable Subject Matter

3. Claims 18-31 are allowed. The following is an examiner's statement of reasons for allowance: the prior art does not disclose an encrypted database file and a file system on said hand held electronic reference product, a reader application adapted for installation on the PC, a serial identification number for one of said hand held product and said file system, a first voucher in said database file, said first voucher based on said serial identification number, and a second voucher in said product at a location outside of said database file, said second voucher based on said serial identification number, a comparator program within the said PC reader to read and compare said first and second vouchers to provide a validation signal if said vouchers meet a predetermined correspondence comparison criterion, said validation signal permitting decryption by the PC of said database file wherein said database file is accessed using said file system of the hand held electronic reference product, precluding use of the file system on the PC, said database file being accessed while said hand held electronic reference product is connected to said PC and thereby said file system of said hand held electronic reference product maintaining control over the transmission of said database file, as set forth in claim 18.

The prior art also does not disclose connecting the PC to a hand held electronic reference product having an encrypted database file and a file system, providing a serial number identification for at least one of said hand held product and said file system, providing a first voucher in said database file, said first voucher based on said serial number identification, providing a second voucher in said product at a location outside of said database file, said second voucher based on said serial number

identification, comparing said first and second vouchers to determine correspondence in accordance with a predetermined criterion, and enabling decryption by said PC of said database file if said step of comparing meets said predetermined criterion, wherein said database file is accessed using said file system of the hand held electronic reference product, precluding use of the file system on the PC, said database file being accessed while said hand held electronic reference product is connected to said PC and thereby said file system of said hand held electronic reference product maintaining control over the transmission of said database file, as set forth in claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
